**Daniel Sexton, GE Global Research, chair SP100.11a**

**Andrew Wheeler, CTO Ember Corp., Zigbee**

---

Saturday April 28, M.I.T.

# Charge to the Panel

---

- **What is the standard and its target domain of use?**
- **Where might the TinyOS community contribute to progress of the standard effort**
  - technical challenges whose solution would influence decision making
  - implementation experience that could provide guidance
  - systematic evaluation
- **Benefits to the community through engaging in with the standard process**
  - research questions of importance
  - industrial opportunities
  - specific impact
- **Potential barriers to doing this work**
- **Call to action**
